### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

**In claim 124, the word --hydrogen-- has been inserted as the last word of the claim and the incompletely reproduced word which presently ends the claim has been deleted.**

The above amendment is merely editorial in nature and corrects an obvious printing/reproduction error such that the record is explicitly clear.

### ***112 Rejections Withdrawn***

The rejection of claims 41, 60, 79, 101 and 104 under 35 USC 112, first paragraph, outlined in the previous Office Action, has been overcome by applicant's amendment. The claims have been amended such that the rejection is no longer tenable (see also the 8/25/06 Interview Summary).

***Allowable Subject Matter***

Claims 2-16, 18, 19, 21-37, 39-92 and 94-124 are allowed. The following is an examiner's statement of reasons for allowance:

The closest prior art remains the prior art of record (see, for instance, the 102(b) rejection in the 11/23/05 Office Action). During the course of prosecution, applicant has narrowed the claims such that they no longer read on the cited art. The cited art neither teaches nor suggests the instant compounds. Nor would it have been obvious to one of ordinary skill in the art at the time of the invention to modify the compounds of the prior art in order to arrive at those of the instant invention. There is no motivation to do so.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
